The Sociology of Architecture by Paul Jones cambridge org

March 27th, 2018 - Drawing on sociological theories to assist an understanding of how political power operates in the cultural sphere The Sociology of Architecture suggests that major architectural projects can act as tangible concrete expressions of the ultimately contested nature of collective identities and that as such provide a focus for questioning the processes through which identities are constructed and maintained by politically powerful actors through the cultural sphere

The Sociology of Architecture and the Politics of Building

May 31st, 2006 - Because architecture provides a "concrete" focus for many debates pertinent to collective identities then the rebuilding of the Ground Zero site by architect Daniel Libeskind is hugely significant from the perspective of sociology
